

Carolina Simó

c.simo@csic.es

Carolina Simó is a Tenured Researcher at the National Research Council of Spain (CSIC) in Madrid. After her Ph. D. in Analytical Chemistry from University San Pablo in 2005 she spent two years as a Post. Doc. at Politecnico di Milano. Dr Simo's main research lines include (i) method development and application of capillary electrophoresis/liquid chromatography-mass spectrometry, (ii) chiral analysis for food analysis (quality, safety, traceability), (iii) Proteomics and Metabolomics in food quality, safety, and food bioactivity studies.
